

MAY 1-3, 2024
SARATOGA SPRINGS, NEW YORK

2024 Learning Institute

Social Determinants of Health Across the Lifespan: Strategies to Address the Impacts of Poverty featuring the Community Action Poverty Simulator (CAPS)

Join us on Wednesday, May 1st for this half-day interactive learning institute featuring an experiential poverty simulation where you will encounter firsthand some of the challenges faced by many low-income New Yorkers. We'll review the impacts of poverty across the lifespan and provide case study examples and strategies for success in your public health role. Finally, we'll explore the cumulative effects of poverty and chronic disease on cognitive health and implications for New York.

Panel of Experts

- Ashley Fico, PhD, MA- SUNY Brockport
- Patti Demma, CCAP- Mohawk Valley Community Action Agency
- Jennifer Audette, LCSW- Stratton VA Medical Center
- Glenn Gilbert, LCSW- Stratton VA Medical Center
- Becky Preve- Association on Aging in New York
- Julia Hastings, PhD, MSW- SUNY Albany
- Elizabeth Smith Boivin- Alzheimers Association of Northeastern New York

Who should attend?

- Students from all areas of interest
- New professionals who have not attended a poverty simulation
- Seasoned professionals and public health leaders who are interested in expanding their understanding of how social determinants impact health outcomes
- Anyone working or interested in working within the health and human services or public health sector

NYSPHA & NYSARH Member Price: \$95

Non-Member Price: \$110
